

Fairfax, VA Service Information

Recycling Rewards

AAA Recycling and Trash Removal Services is the **first company** in this area to introduce an exciting new way to recycle. AAA is committed to providing “best in class” service for all of our Northern Virginia customers, and an opportunity for you to join us in helping to protect our environment. Through this commitment, we have realized the value of adding a **single stream** (no more sorting) recycling program that rewards YOU for recycling.

AAA Recycling and Trash Removal Services is very excited to introduce Recycle Bank into the Northern Virginia area, a loyalty and rewards program that motivates households to recycle. Each resident will receive a green 64-gallon wheeled cart, which is equipped with a bar code and radio frequency identification (RFID) chip mounted on the body. The exciting part about single stream recycling is that you place ALL of your recyclable materials in this cart (aluminum, cardboard, newspapers, plastic, glass, etc.). Our trucks are retrofitted to read the RFID chip and weigh the contents of your cart.

Here’s the best part: The amount you recycle will be recorded and converted into RecycleBank Reward Points. Through RecycleBank.com or via toll free access to customer care, these points can be redeemed at **hundreds of national and local** retailers, including CVS, Dick’s Sporting Goods, Bed Bath and Beyond, Panera Bread, Anita’s, Paisano’s Pizza, just to name a few. You can check out this exciting program by going to www.recyclebank.com

AAA commends you for making the right choice in service and now for recycling. Two very good reasons for joining and staying with AAA. We ask for your patience as we implement this dynamic new program in your neighborhood.

AAA Recycling/Trash Removal and Single Stream Recycling

AAA Recycling and Trash Removal Services hauls its residential recycling to recycling centers in Northern Virginia that accepts single stream recycling materials. In most cases, our recycling is collected in rear-load residential compactor trucks, which are identical to those used in collecting rear-load residential trash.

Single stream recycling allows all the acceptable recycle materials to be mixed together in one collection container at the curb. The commingled recycling is then hauled away as single stream recycling. A recycling center must be equipped to handle commingled recycling that is single streamed. The recycling materials are then sorted by the type of recyclables at the recycling centers.

AAA wants to increase the overall recycling efforts by communities, by removing the need for its residential customers to have to sort their recycling at the curb.

Currently AAA provides curbside recycling collection for all plastics #1-7, cans, glass bottles and jars, and mixed paper.

<p>Acceptable Curbside Recycling Items:</p> <ul style="list-style-type: none"> • junk mail • magazines • catalogs • newspapers • phone books • cereal and cracker boxes • flattened cardboard • AAA would prefer (3ft x 3 ft) • yogurt/margarine tubs or similar items 	<p>Unacceptable Items Curbside Recycling Items:</p> <ul style="list-style-type: none"> • light bulbs • ceramic dishes • cookware • pizza boxes • plastic or wax coated paper (milk cartons) • hardcover books • styrofoam • plastic bags • aluminum foil or foil pie pans
