CONSERVE

Doing More – Beyond Curbside!

REDUCE

Reducing the amount of waste generated is the best option for protecting the environment.

Landfilled Plastics

Since the market is minimal for plastics #3 - #7, they often end up in the landfill. Try the following options to reduce waste generation:

- Bring your own travel mug when getting a cup of coffee at the coffee shop or at the office.
- Buy goods in containers and packaging that are easier to recycle such as aluminum, glass, non-waxed cardboard and plastics #1 - #2.
- When eating out, bring your own takeout containers and order drinks without the straw.

Lose your lawn; grow a garden

You can reduce yard waste by replacing a lawn with a water-efficient garden. You can get rebates of up to \$1,000 through the Contra Costa Water District's Water Efficient Landscape Rebate Program. Visit <http://www.ccwater.com/consERVE> for information on this and other programs.

REUSE

Reduce waste and save money, energy and resources by reusing items or donating them to people or groups that can use them.

Freecycle and Craigslist

The free, fantastic services at Craigslist.org and Freecycle.org help you find new homes for unwanted goods, and they are sources of free (or cheap) goods.

Choose to Reuse: Garage Sales & Donations

Make and save money with garage sales. Sell items you don't want or need and avoid disposal costs. The City of Antioch and Republic Services will sponsor the 9th annual Citywide Garage Sale the weekend of October 4-6, 2019. Register at www.antiochyardsales.com in September, 2019.

The following Saturday, October 12, 2019, Republic Services will sponsor the 9th annual Reuse Roundup. Items that are dropped off will be given to local causes and charities in Antioch.

SAVE THIS WEEKEND!

SAVE THIS DATE!

RECYCLE – Empty, Clean, Dry

Recycling and the markets for recyclable materials have evolved. Overseas companies, mainly in China, no longer accept certain types of recyclable materials or recyclables that are not clean and contaminant free.

Extra attention is needed to reduce waste overall and to make sure correct materials go in the recycling and green containers.

Recycling works best when materials are **empty, clean and dry**. Place only the materials that you know are clean and recyclable in the recycling container. Your help with proper sorting can make a difference.

PROPER DISPOSAL

Many common items contain mercury, heavy metals and other toxic chemicals and must be disposed of properly. See Toxics page for details on proper disposal of used oils, electronics and other household hazardous wastes.

Bulky Items

Avoid using unlicensed haulers to pick up large, bulky items. Antioch residents may call (925) 685-4711 to schedule a bulky item pickup with Republic Services. See the Bulky Item page for a list of acceptable pickup items.

Illegal Dumping

Illegal dumping in Antioch can be reported to Republic Services by calling the customer service line at (925) 685-4711.

For more information about how to prevent illegal dumping in Contra Costa County, please call 1-800-NO-DUMPING (1-800-663-8674).
