

TOTAL ENVIRONMENTAL SOLUTIONS PARTNER

Emergency Response to Hurricane Laura Damage

Freezing temperatures and excessive water build-up created problems for more than 100 frac tanks at the customer location. All on-site personnel were rapidly deployed to work toward a timely solution.

The Opportunity

The customer needed immediate response and delivery of more than 100 frac tanks to their facility, in a safe and effective manner.

The Solution

Republic Services delivered the required frac tanks. The local team created enough space on premises for drivers to safely accommodate every tank. The quick solution helped the customer control costs, and also contributed to their sustainability goals.

Keys to Success

- ✓ Safety-focused
- ✓ Can-do attitude
- ✓ Reliable service
- ✓ Committed to favorable results
- ✓ Cost-conscious

Testimonial

"Special thanks to the team who worked hard at getting all the tanks and hoses so quickly. Everything went well and surprisingly smoothly. "
