

Commercial Food Waste Collection

Compost your food scraps and reduce your impact on the environment.

Food Waste Collection

Republic Services® offers a food waste collection program for commercial businesses within the Bend, Redmond and Sisters city limits. This program gives commercial customers another opportunity to further reduce their waste, recycle more and keep organic waste out of the landfill.

It's Easy!

Fill your food waste cart with any food waste material including meat, produce, dairy and bakery items. We'll empty and rinse the cart at least once a week. The material goes to Deschutes Recycling where it will be processed into nutrient-rich compost.

Service

We offer 65-gallon roll carts to collect your food waste material. We can provide as many carts as needed. Carts are serviced once or twice weekly, depending on your needs. Carts are rinsed clean each time they are serviced.

Fees

The monthly fee will depend on the number of carts and the frequency of service. Contact Republic Services and we will schedule a representative to meet with you to determine the best program to fit your needs.

✓ What Goes in the Cart?

All food including meat, seafood, fruits, vegetables, dairy products, bakery items, rice, pasta, beans, coffee grounds and filters, tea leaves, egg shells, bones, paper napkins and sauces.

✗ What Does Not Go in the Cart?

Plastic bags, plastic containers, clear plastic clamshells, foil, grease & oils, seafood shells, foodware, utensils, metal or polystyrene foam.
