Reuse is best!

Before tossing unwanted items, consider if they can be donated or sold to a local thrift store or through an online community group such as Freecycle, Nextdoor, Facebook Marketplace, or Buy Nothing group. If your item is damaged, consider if it can be repaired. The good news is there are many ways we can reduce the waste that goes to landfills. Our goal is to reduce the amount

of waste generated, and increase diversion of recyclables and organics from the landfill through our work with residents, businesses, schools, and others. Scan the QR code or visit recyclestuff.org to learn more.
