Senate Bill (SB) 1383 Organic Containers

By the end of 2024, all commercial and multi-family customers should have received an organics cart. Businesses that meet certain criteria can apply for a waiver. Please visit our website at RepublicServices.com/municipality/fresno-ca. Under SB 1383 Organic Waste Resources is a link to fill out the waiver and submit it by email. Applications will be sent to the City of Fresno for determination of approval or denial.

Acceptable Items: yard waste, grass, leaves, branches, flowers, food waste, table food scraps, food-soiled paper products

NOT acceptable: bags, food containers, recyclable material, wrappers, trash, pet waste, construction waste, oils, fats, grease, any hazardous waste

Some helpful tips for your organics container: you can add landscaping into your container with the food waste. Pine shavings can be thrown in, as well, to eliminate odors as much as possible.

Please visit our website. You will have access to educational material to prevent any contamination and other helpful tips, as well as our upcoming holiday schedule.
