New StopWaste Regulatory Fee

Beginning July 1, 2026, a new StopWaste Regulatory Fee will appear on trash bills. This is a StopWaste fee—not a city or hauler rate increase.

California requires local governments to keep compostable and recyclable materials out of landfills, reduce food waste, recover surplus edible food, and prevent plastic bag pollution. These requirements protect the environment, reduce climate pollution, and support the health of our communities. However, the state provides only very limited funding to carry out this work.

StopWaste implements these programs on behalf of all 17 Alameda County jurisdictions, and the regulatory fee allows StopWaste to recover the cost of this required work.

The fee adds 30 cents per month for residential customers and about \$2 per month for most commercial accounts, depending on account type and service level.

Bags to Bins Guide

The right bag matters! Plastic bags slow processing and reduce quality, and can be considered **contamination** in organics or recycling. Sort smartly, and do your part by using an acceptable bag.
