Sustainability in Action

Debris Dumpster Services

Republic Services is the exclusive provider for all recycling, trash, organic waste and construction and demolition (C&D) services for the City of Salinas. A variety of dumpster sizes are available to meet your project needs. Contact customer service for rates and delivery information. Make a plan, and schedule service days in advance.

Did You Know?

The What Goes Where App is Monterey County's guide to help you determine how to recycle everyday materials. Plastic containers, pizza boxes, coffee cups, bags, paint — the app will guide you to curbside programs and nearby drop-off locations to maximize reuse and recycling options. Download the What Goes Where app on iOS or Android, or visit whatgoeswhere.info.

What Goes Where
Recycling is Changing in
Monterey County

Dates to Remember

Independence Day (Friday, July 4) Our office will be closed, and service will occur one day later than your regularly scheduled service day.

Labor Day (Monday, September 1) Our office will be closed, but service days will remain the same.

Overfilled Containers

Overfilled containers can lead to litter on the streets and increased maintenance needs. To ensure proper service and protect public health and safety, container lids must be fully closed. If a lid remains open because the cart or dumpster is overfilled, an overload fee will be applied.

Hazardous Waste

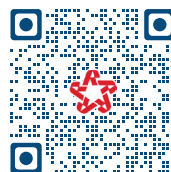

Many everyday products contain hazardous ingredients and must be disposed of properly. It is illegal to throw household hazardous waste (HHW) in the trash, recycling or storm drains, or on the ground, as it can harm the environment. Instead, take HHW to the facility at 1104 Madison Lane in Salinas. They accept hazardous waste from households and small businesses. For details on accepted items and limits, visit Salinasvalleyrecycles.org or call **831.424.5520**.

Examples of Household Hazardous Waste:

- Mercury thermostats
- Flammable liquids
- Cleaners
- Pool chemicals
- Pesticides and herbicides
- Asbestos
- Needles and syringes
- Electronic devices (computers, TVs, cell phones, microwaves, etc.)
- Fluorescent bulbs and tubes
- Motor oil and filters
- Antifreeze
- Weed killers
- Household cleaners
- Aerosol cans (unless completely empty)
- Paint and solvents
- Appliances
