Notice of Non-Compliance
State of California's Mandatory Commercial Organics Law (AB 1826)

February 1, 2021

Dear Business Owner or Manager:

Assembly Bill (AB) 1826 requires businesses that generate organic waste to arrange for recycling services for that waste. On September 15, 2020, the Department of Resources Recycling and Recovery (CalRecycle) lowered the AB 1826 threshold to include businesses that generate two or more cubic yards per week of solid waste (total of garbage, recyclables and organics). **Based on the new threshold, our records indicate your business may be out of compliance with AB 1826.** To comply with this State law, your business must arrange for organic waste recycling. Organic waste includes food waste, green waste, landscape and pruning waste, non-hazardous wood waste, and food-soiled paper.

Republic Services is dedicated to helping your business adhere to all laws. Please tell us how your business is handling its organic waste collection by completing the required online survey at <https://www.surveymonkey.com/r/COS1826> or scanning the QR code below. Survey responses are due **March 15, 2021**.

Additional details regarding AB 1826 can be found on CalRecycle's website:
<https://www.calrecycle.ca.gov/Recycle/Commercial/Organics/FAQ/#Business>.

Please contact our Recycling Coordinating team, at Recycle209@republicservices.com or (209) 406-3499 to learn more about your AB 1826 compliance options.

Sincerely,

A handwritten signature in blue ink that reads "mollygomez".
