Old Sacramento Historic District

Recycling & Waste Business Guide

Shared Service

Throughout Old Sacramento, there are Republic Services containers of various sizes and colors. Use your waste container map to find the ones nearest you in order to properly dispose of your recycling, trash and organics.

If you notice issues with the containers, the enclosures, the container sizes or container contamination, please alert Republic Services or your Old Sacramento Field Representative.

Container Cleaning

Without you having to pick up the phone, Republic Services will clean all outdoor shared containers periodically. This will help combat odor and keep them looking fresh! This service is pre-scheduled each year. If you notice an especially unsightly container or enclosure, please bring it to the attention of Republic Services or your Old Sacramento Field Representative.

Food Grease/Oil Services

Interstate Oil will collect your food establishment's used cooking oil and grease at no additional charge. If your place of business needs this service, please contact Republic Services or your Old Sacramento Field Representative.

Bulk Pickup (Additional Fee)

For an additional fee, you may schedule a bulk pickup for your business. This service is perfect for large items or hard-to-dispose-of items. These materials are transferred to a facility that will sort and recycle applicable items.

If you plan to dispose of computer monitors or TV screens, please alert Republic Services staff when scheduling your service. Set those items slightly separate from the rest of your bulk pile so they may be treated with care.

Acceptable Bulk Items

- Excess solid waste
- Recycling or yard waste
- Computer monitors, TV screens and other electronic waste
- Small tree stumps (not to exceed 16 inches in diameter or length)
- Mattresses
- Appliances
- Furniture

Unacceptable Bulk Items

- Excess food waste
- Cars or car parts
- Construction material (concrete, dirt, sheetrock or roofing material)
- Hazardous waste

Internal Containers

New business establishments in Old Sacramento will receive an indoor organics container from Republic Services. If your current internal container is defective or missing, please call Republic Services for a replacement.

Clear or transparent compostable liners/bags are the only liners permitted in the green organic container outside. If you choose to bag your food waste inside your business, please use clear or transparent compostable liners/bags. Once your internal container is full, dispose of food waste in one of the green organic containers in an enclosure near you.

Technical Site Analysis & Employee Training

Once a year, Republic Services staff will visit your business to assess your recycling and waste program. Staff will give you tips on indoor cart placement, signage, best practices and more. Republic Services is also available to train your staff on proper separation techniques.
