Union City Compost Hub

Residents can now obtain loose compost at no additional cost! Simply bring your own container or bag and a shovel to the self-serve **Union City Compost Hub at 35700 Alvarado-Niles Rd.**

1. Bring your own container or bag and shovel to the self-serve Union City Compost Hub.
2. Fill your container or bag with compost, available year-round as weather permits at no additional cost.
3. Use the compost in your home garden to build healthy soil and promote plant growth.

STOPWASTE

StopWaste Regulatory Fee

Beginning July 1, 2026, a new StopWaste Regulatory Fee will appear on garbage bills. This is a StopWaste fee—not a city or hauler rate increase.

California requires local governments to keep compostable and recyclable materials out of landfills, reduce food waste, recover surplus edible food, and prevent plastic bag pollution. These requirements protect the environment, reduce climate pollution, and support the health of our communities. However, the state provides only very limited funding to carry out this work.

StopWaste implements these programs on behalf of all 17 Alameda County jurisdictions, and the regulatory fee allows StopWaste to recover the cost of this required work.

The fee adds 30 cents per month for residential customers and about \$2 per month for most commercial accounts, depending on account type and service level. Learn more: StopWaste.org/regulatory-fee.

Sustainable Spring Cleaning: Bulky Item Collection Service

A Bulky Item Collection may be requested by your property manager for a fee to collect unwanted items that are too large or bulky. Set aside reusable and recyclable items to ensure these are collected for reuse and recycling and not sent to the landfill. Alternatively, the property manager may request an open-top debris box for a property-organized clean-up event for the associated container collection rate. Contact Republic Services at **510.657.3500** or visit RepublicServicesAC.com for more information.

Visit StopWaste.org/RESource to find other reuse, repair, recycling, and safe disposal options.

Reuse is best!

Before your collection of unwanted items that are in good condition, consider if they can be donated or sold to a local thrift store or through an online community group such as Freecycle, Nextdoor, Facebook Marketplace, or Buy Nothing group. If your item is damaged, consider if it can be repaired. The RE:Source guide available at StopWaste.org has handy information on reuse, repair, recycling and safe disposal. Haven't tried using the RE:Source guide yet? Scan the QR code to download the app today!
