

Your Green Cart is coming soon!

California's new state law SB 1383 requires* all residents to recycle organics. Why? Because organics account for more than a third of the material going to California landfills and contribute to global climate change.

Even if you don't have yard trimmings, SB 1383 requires us to provide you with a green cart and weekly service so you can compost your food scraps and food-soiled paper, such as pizza boxes and paper towels.

Republic Services will deliver your new small 32-gallon green cart and kitchen food scrap pail to your home in early December 2024.

Beginning January 1, 2025, the "yard waste exempt" rate will no longer be available per SB 1383 mandatory organics. Your rate will be updated to the regular residential rate that includes all 3 required carts – landfill, recycle & organics.

* SB 1383 requires each household to separate all organics for composting and recycling, therefore requests to remove the cart cannot be granted. Your quarterly bill includes mandatory organics cart service. You cannot reduce your bill by refusing a green cart.
