Senate Bill 1383

Composting organics is now the law!

SB 1383 is a statewide effort to reduce emissions of short-lived pollutants by reducing organics waste disposal to 75% by 2025. One of the provisions of the law requires auditing of residential garbage, recycle and organics carts. So it's important for the proper sorting of material into each cart.

Residents must:

- Subscribe/participate in curbside organics program
- Properly sort your organics into the **GREEN** cart
- NOT put organics in your trash cart
- NOT put organics in your on-call trash or citywide cleanup; use your on-call organics cleanups

Want more information? Go to calrecycle.ca.gov/organics/slcp/faq or go to cccrecycle.org.
