About Us

Republic Services is a leader in environmental services. With the acquisition of US Ecology, ACV Enviro and ECOFLO, we're now able to offer customers the most comprehensive set of Environmental Solutions from a single company. The combined strength and extensive experience of the acquired companies in the Industrial Services space allows us to provide customers with a nationwide network of facilities and assets to safely and compliantly handle all industrial service needs for any industry.

The Value of Industrial Services Solutions

- › Minimize operational downtime
- › Reduce risk and liability
- › Increase safety at your facilities
- › Save money
- › Focus on driving your business forward
