

Remediation Solutions

Republic Services offers compliant, innovative technologies and experienced project management. We provide solutions for waste segregation, profiling, excavation, loading, transportation and disposal needs of contaminated soils.

REPUBLIC
SERVICES

Sustainability in Action

Republic Services is a leader in environmental services. Through the acquisition of US Ecology, ACV Enviro and ECOFLO, Republic Services can now offer customers comprehensive Environmental Solutions, including Remediation.

We focus on building partnerships and risk minimization by fusing remedial construction expertise with waste disposal to our extensive network of Subtitle C and Subtitle D waste disposal facilities. Our environmental remediation expertise extends to all types of remedial actions encompassing large-scale contaminated soil excavation to multi-modal waste management programs and facility decommissioning.

State-of-the-art equipment and professionally trained team members

Customized solutions for small to large, complex projects

Turnkey services including industry-leading disposal and recycling capabilities

Remediation Solutions

- Removal actions ranging from simple to complex, surgical excavation of impacted media
- Stabilization treatment technologies applied in-situ/ex-situ as an alternative approach to conventional removal actions.
- PCB site remediation, transportation and disposal
- Sediment services, including contaminated sediment removal, wetlands restoration, bank stabilization
- PFAS-contaminated soil excavation, transportation, and disposal
- AFFF concentrates and firefighting foam collection and disposal
- Facility decontamination, decommissioning and demolition (Hg, Pb, Radiological)
- Radiological remediation and waste management
- CERCLA site remediation
- RCRA facility and impoundment closures

- Lagoon closure, landfill capping, and closure
- UXO/MEC remediation
- Waste transportation and disposal via truck, tanker and rail

Value of Our Remediation Solutions

- Partnership approach with expert project management
- Compliance with local, state and federal regulations
- Meet specified customer needs on time and on budget
- Innovative solutions to accommodate both large- and small-scale project capabilities
- True, turnkey solutions from completion of site remediation to secure disposal at our treatment and disposal facilities.
