

3M Scott Air-Pak

SRS, a Republic Services company, is an official distributor and authorized service center of 3M™ Scott™ Air-Pak™ in North Texas supplying various industries.

SRS, a Republic Services company, offers renowned response specialist and equipment for high-hazard environments.

We are an official distributor and authorized service center for 3M Scott Air-Pak servicing first responders and other industries in Texas, Louisiana and Oklahoma and railroads across North America. We provide aftermarket services including repairs, inspections and function tests for any Air-Pak product.

3M's Scott Air-Pak, a self-contained breathing apparatus (SCBA) is used by first responders and rescue teams in areas with smoke, heat or inhalation hazards.

The Air-Pak is known for its rugged construction and ability to withstand heat. The simple and lightweight Air-Pak 4.5 is the most common SCBA used by first responders in the United States.
