

Total Waste Solutions

A comprehensive, customized and sustainability-focused approach for your environmental solutions needs.

REPUBLIC
SERVICES

Sustainability in Action

Republic Services is a leader in environmental services, offering Total Waste Solutions to centralize and standardize management of waste across multiple facilities.

Working together, we define cost and waste volume reduction goals in a performance improvement plan and provide progress reports. Our customized tracking systems provide a consolidated view of waste data. Whether you want help managing your waste solutions or you want us to manage them onsite for you, our Total Waste Solutions is customized to your needs.

Key Program Features Include

- A single source for management of transportation, disposal and recycling of all waste
- Highly trained and dedicated support staff — on-site and off-site
- EHS consulting
- Initial waste audit and analysis to provide a performance baseline
- Implementation and management of a waste tracking system
- Alternative uses for waste to achieve sustainability and improve ESG performance
- Republic Services-owned and -operated TSDFs, industrial cleaning and maintenance services, and emergency response services
- 24/7 emergency response and preparedness
- Wastewater treatment: carbon filtration, ion exchange or resin filtration systems
- Waste transportation and disposal via truck, tanker and rail

The Value of Total Waste Solutions

- Improved safety and compliance
- Risk reduction
- Goal progress tracking
- Cost savings
- Innovative solutions
- Sustainability
