Senate Bill 1383

Composting organics is now law! Organic material accounts for more than one-third of the waste stream in California. Greenhouse gas emissions caused by the decomposition of organic material in landfills, contribute to global climate change. Businesses are required to separate organics, including all food scraps, uncoated food-soiled paper and yard trimmings for composting. Additionally, annual training of staff and education of tenants is required. Visit AntiochCA.gov/sb1383-implementation for more information on the city's efforts to comply with SB1383. For more information on SB1383, go to calrecycle.ca.gov/organics/slcp.

Mandatory Recycling and Organics Containers

State law, AB 827, requires businesses (covered under AB 341 and AB 1826) to have organics and recycling containers available for customers to use to collect material purchased and consumed on their premises. For more information about AB 827, visit: calrecycle.ca.gov/recycle/commercial/organics/faq.

Food Recovery

To reduce food waste and help address food insecurity, SB 1383 requires that by 2025 California will recover 20 percent of edible food that would otherwise be sent to landfills, to feed people in need. The law directs the following:

- Jurisdictions must establish food recovery programs and strengthen their existing food recovery networks
- Food donors must arrange to recover the maximum amount of their edible food that would otherwise go to landfills
- Food recovery organizations and services that participate in SB 1383 must maintain records

Technical and Educational Assistance

Want to improve your recycling and/or organics programs? Need to start a program? Employees need training? Republic Services can provide educational material, posters, training, waste assessments, help set up programs, offer suggestions for improvements and answer any questions at no additional cost.

Contact sustainabilityadvisors@republicservices.com or call (925) 671-5853.

Mandatory Trash, Recycling, and Organics

Antioch Municipal Code 6-3.02 requires all businesses and apartment/condo properties to subscribe to adequate levels of garbage, organics, and recycling services.

Contact sustainabilityadvisors@republicservices.com or call (925) 671-5853 for assistance.
