## AUGUST BEST PRACTICES FOR FOOD WASTE RECYCLING

## Best Practices for Food Waste Recycling

### Mitigate Odors and Pests, etc.

#### **Freeze Your Food Scraps**

Keep food scraps frozen to minimize odors and decomposition before your scheduled collection day.

#### **Top Cart Contents** with Yard Waste

Pad the bottom and top of your food waste with yard waste like leaves, grass clippings, or "clean" wood shavings to absorb liquids. Wood shavings can also be used to help reduce odors.

#### **Use BPI-Certified or Paper Bags**

Place food waste in paper bags or BPIcertified compostable bags inside your organic waste cart.

#### **Double-Bag Food Waste**

Double-bag your food waste to keep the contents sealed and reduce the risk of leaks.

#### **Tie Bags Securely**

Tie BPI-certified compostable bags at the top to keep food waste inside, leaving room for a secure knot.

#### **Line Your Cart with Newspaper**

Line your countertop pail or organics cart with newspaper and replace it regularly to help maintain cleanliness.

#### Place Cart at the Curb Weekly

Place your cart at the curb every week, regardless of the amount of material inside.

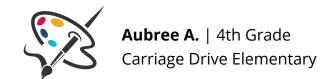

#### **Top with Cold Ashes**

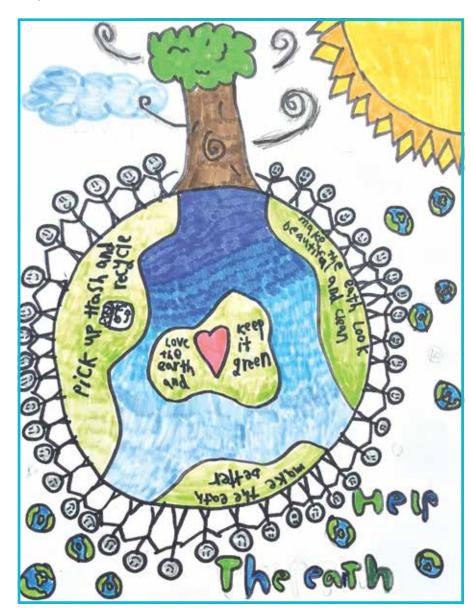

Ashes from fireplace or BBQ may be disposed of in the green cart and used to absorb food waste. Note: Ashes must be completely cooled down.

#### **Layer with Paper Towels**

Add a layer of food-soiled paper towels or napkins to your green cart to absorb liquids from food waste.
