Sustainability in Action

4TH QUARTER 2026

Rodeo’s Sanitary District (RSD) Partnership With Rodeo Hardware

The partnership between RSD and Rodeo Hardware was formed in September 2008. **Rodeo Hardware is the staging point for Rodeo residents to recycle the following items at no additional cost** (as long as Rodeo Hardware is open):

- Batteries, including lithium batteries (no car batteries)
- Fluorescent tubes
- Compact fluorescent lights (CFLs)
- Mercury thermometers – this item may be exchanged for a free digital thermometer!

Unfortunately, RSD and Rodeo Hardware are not set up to take more than just the batteries, fluorescent bulbs and mercury thermometers. However, with proof of residency, Rodeo residents may drop off the following items, also at no additional cost, to the **West Contra Costa HHW Recycling Facility**:

Acceptable Items

- ✓ Electronics
- ✓ Household cleaners, aerosols and sprays
- ✓ Paints, stains, solvents and pesticides
- ✓ Pharmaceuticals (no controlled substances)
- ✓ Fluorescent bulbs and batteries
- ✓ Automotive fluids and car batteries

Unacceptable Items

- ✗ Explosives, including firearms
- ✗ Radioactive materials
- ✗ Medical waste
- ✗ Pressurized gas cylinders more than 5 gallons

Rodeo Hardware

670 Parker Ave., Rodeo, CA 94572

Mon – Fri: 8 a.m. - 6 p.m.

Sat: 8 a.m. - 5 p.m.

Sun: 9 a.m. - 1 p.m.

Contact RSD at **510.799.2970** for more information.

West Contra Costa HHW Facility

101 Pittsburg Ave., Richmond

Wed – Sat: 9 a.m. - 4 p.m.

(closed 12 - 12:30 p.m.)

Visit **Recyclemore.com/Hazardous-Waste** for more information.

CA State Law SB 1383 - A Quick Reminder About Sorting Right

California’s Senate Bill (SB) 1383 regulations require residents to properly separate recyclable materials, organic waste and trash. **Placing incorrect items in your recycling or organics cart may result in contamination surcharges of \$44.83, per contaminated cart and per event.** Please be sure to sort materials correctly to help avoid additional charges.

Not sure where an item belongs? We’re here to help! Search StopWaste’s RE:Source guide at **Resource.StopWaste.org** or scan the QR code for reuse, repair, recycling and safe disposal options. For further assistance, contact our team of Sustainability Advisors at **RecyclingCoordinators@RepublicServices.com**.

NEW! Camera Technology on Collection Trucks

Camera technology on collection trucks helps identify contamination in recycling, improving material quality and supporting compliance with state recycling laws.

- ✓ Maximizes driver efficiency
- ✓ Improves sustainability
- ✓ Reduces rejected loads at facilities
- ✓ Identifies contamination

Set Out for Success: Prevent Service Disruptions

An Oops Tag or no service may result from:

- ▶ **Blocked cart** – Carts must be curbside, 3 ft. apart from other carts and 5 ft. away from vehicles
- ▶ **Unsafe** – Carts located in an unsafe location or that contain hazardous material may not be collected.
- ▶ **Overloaded cart** – Carts must not be too heavy to pull, move, or lift, and the lid must be fully closed.
- ▶ **Contaminated cart** – Unacceptable items in the green organics and/or blue recycling cart may not be collected and may result in contamination charges.

Reminder: No black or white kitchen trash bags, or soft plastics in the *recycling and organics* carts.
