

SB 1383 Organic Waste Generation Form

Complete all sections below. Fields marked with a red star (*) are required.

Section 1. Site Information

Site Type*

Multi-Family Dwelling with 5 or More Units

Commercial Business

Commercial Business means any firm, partnership, proprietorship, joint-stock company, corporation, or association, whether for-profit or nonprofit, strip mall or industrial facility.

Site Name* _____

Physical Address* _____

City* _____ STATE* _____ ZIP* _____

Section 2. Organics Collection Waiver Request

Organics collection waiver requests can be submitted for one of two reasons, De Minimis or Physical Space, per the definitions below. Documentation demonstrating that your site is eligible for a waiver, such as photographs or site plans, must be provided in "Section 5. Supporting Documents."

A. De Minimis

Site receives 2 or more cubic yards/week total solid waste service (garbage + recycling + organics), and generates less than 20 gallons/week organic waste

- or -

Site receives less than 2 cubic yards/week total solid waste service (garbage + recycling + organics), and generates less than 10 gallons/week organic waste.

B. Physical Space

Premises lack adequate space for organic waste containers.

Are you requesting an organics collection waiver for your site?*

Yes

No

Select the type of organics collection waiver that you are requesting:

De Minimis

Physical Space

Waiver Eligibility Details

Provide any additional details to support your site's eligibility for an organics collection waiver.

Section 3. Alternative Compliance

The standard method of compliance with mandatory recycling and organics laws is through collection service provided by a waste hauler. However, other methods may be employed as well, as defined below:

Shared

Materials are recycled through shared collection service paid for by a neighboring business.

Self-Haul

Employee(s) transport materials to a recycling facility.

Backhaul

Materials are transported to a central location owned by the business or an affiliate for on-site recycling or shipping to a recycling facility.

Landscaper

Landscaping contractor transports yard waste to a recycling facility.

Third Party

A third-party entity (other than employees, garbage hauler or landscaper) transports materials to a recycling facility.

On-Site

Materials are recycled on-site, most commonly via composting.

Are you recovering materials at your site through methods other than collection service provided by a waste hauler?*

Yes

No

Are you recovering materials at your site through methods other than collection service provided by a waste hauler?*

Yes

No

If yes is selected, fill out Alternative Compliance Methods below:

Alternative Compliance Methods

Report each material recycled via an alternative compliance method. Include as many details as possible, including facilities, addresses, contact information, and estimated cubic yards per week.

Material* *select all that apply*

Mixed Recyclables

Cardboard

Beverage Containers

Mixed Organics

Yard Waste

Food Scraps

Other

Method* *select all that apply*

Shared

Self-haul

Backhaul

Landscaper

Third Party

Other

If landscaper is selected, provide landscaping company name in "Details":

Details*

Section 4. Edible Food Recovery

Is edible food (food intended for human consumption) produced, distributed or consumed at your site?*

Yes

No

If yes, answer below:

Are you recovering the maximum amount of edible food that would otherwise be disposed?

Yes

No

Does your site have a contract or written agreement in place with a food recovery organization or service?

Yes

No

Contracts or written agreements can be attached with the application.

Select the category that best describes your site:

- Food Distributor
- Food Service Provider
- Health Facility: 100+ Beds
- Health Facility: <100 Beds
- Hotel: 200+ Rooms
- Hotel: <200 Rooms
- Grocery Store: 10,000+ Sq Ft
- Grocery Store: <10,000 Sq Ft
- Supermarket
- Large Event: 2,000+ Average Attendees/Day
- Large Event: <2,000 Average Attendees/Day
- Large Event: Attendees TBD
- Local Education Agency
- Restaurant: 250+ Seats or 5,000+ Sq Ft
- Restaurant: <250 Seats or <5,000 Sq Ft
- Wholesale Food Vendor
- Other

Note that a Grocery Store primarily sells food, while a Supermarket is a full-line retail store with gross annual sales of at least \$2 million.

Edible Food Recovery Details

Provide details about your edible food recovery program, including how much and what type food is being recovered, where it's going, and which organizations and/or services you are working with.

Section 5. Supporting Documents

Attach document that supports your submission to your application. Documents may include photos, site plans, contracts, business license, written agreements, delivery receipts and weight tickets from solid waste disposal facilities, etc.

Section 6. Certification

Name of Person Completing This Form*
