

Proper Container Placement is the Key to Automated Service

- Have your container at the curb by 5 a.m. on your collection day.
- Place the container at least 3 feet from other objects like trees, poles, fire hydrants, mailboxes, electrical boxes, cable boxes, etc., and at least five feet away from cars so the automated arm can reach your container.
- Please have this same distance of five feet between your recycling and waste containers.
- Don't lean anything against the container.
- Don't place your container under a tree.
- Place containers one foot from the curb or edge of the street.
- Remember to have the handle toward your house, with the lid closed.
- Please don't allow children to play in or around the containers. Republic Services® trucks use mechanical arms to pick up the recycling and waste containers.
- ***Do not put paint, hot ashes, light bulbs, computer screens/ keyboards or other electronic items with a plug in your recycling containers.***
