Sustainability in Action

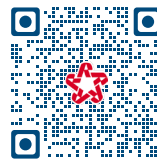

### Why Waste Prevention Matters

Waste prevention offers significant environmental and economic benefits, including reduced pollution, resource conservation, energy savings and cost reduction. Reducing waste lessens the burden on landfills, reduces greenhouse gas emissions, and protects natural resources.

Consider purchasing durable, long-lasting materials, reducing the amount of packaging, or using products that are free of toxic materials. Visit [zerowaste.org](https://www.zerowaste.org) to get your business or organization started on low-waste solutions.

### Oregon's Recycling System Has Been Upgraded

Oregon's Plastic Pollution and Recycling Modernization Act (RMA) officially went into effect July 1, 2025.

**Have you seen your new recycling guide?**

Scan the QR code to view the updated guide now.

### Calendar Updates

Keep an eye out for your 2026 calendars, coming soon!

### Prineville Recycle Depot

Our recycling depot is open to the public 24/7. We accept commingled materials, cardboard, glass, batteries and used motor oil. For more information, call Republic Services at **541.447.5208**.

### Skip the Call, & Visit Our Office

Pick up a calendar or recycling guide, start a new service, rent a dumpster, make payments (card only), and much more!

1751 N. Main St.,  
Prineville, Oregon 97754

*Open Monday - Friday, 8 a.m. - 4 p.m.*

**Download the Republics Services app for easy access to all your service information. View recycling collection schedules, recycling information and invoices, and easily pay bills. Available wherever and whenever you need it!**
