

Make the right call on what items to recycle this game day

MVP: Most Valuable Plastics

Don't get juked by the misconceptions surrounding plastics recycling. Hard plastic containers like water bottles, milk jugs and plastic takeout containers are entirely recyclable, if they're empty, clean and dry.

Just remember to keep items like plastic bags and food wrappers on the bench.

Food and Yard Waste is Always Out of Bounds!

Have you heard? Food and yard waste makes up about 30% of the waste that's sent to landfills. Turn your leftover party snacks into compost and sack greenhouse gas emissions before they start. Learn how you can recycle your food waste at home.

Pizza Boxes?

Once a pizza box is soiled with grease and cheese, the cardboard is no longer recyclable and could even contaminate the entire cart. If the top half of your pizza box is clean, simply tear it off and recycle it.

Aluminum — the Recycling Champion

Aluminum is forever recyclable and provides unrivaled benefits for sustainability. In fact, one recycled aluminum can saves enough energy to power a television for 3 hours.
